

Y1 class News 10 - 14 October 2022

Dear Parents and Children,

The week has whizzed by once again with lots of super learning.

The children have been competing lots of practical work and problem solving in Maths using their number bond knowledge.

On Tuesday the children were so glad that the rain had stopped to enjoy P.E outside with Matty, the sports coach. We practised our agility skills around obstacles to collect the treasure!

In the afternoons, there are opportunities to have some continuous provision whilst small groups complete Topic work. In R.E the children found out how Jesus lived with his family. It was so hot they slept on the roof under the stars!

We like reading, writing, building, drawing, Maths and Role-play.

The class library

Next week we are we are having a visitor come into school to help us find out about Judaism.

Thank you for all the support you give at home and for returning the reading books so promptly.

Enjoy the weekend everyone

Mrs Furness
