

25th- 30th September 2022

Dear Parents and Children,

The children have been doing so well learning number bonds in Maths and practising lots of addition sums. They are recalling facts so much quicker now. A big thank you to everyone for completing all the Maths tasks set for homework and on Purple Mash.

In Science the children have been finding out about different animals and the groups they belong to, the children have been learning new vocabulary e.g amphibian and mammal and sorting the animals into sets.

The children are enjoying their music and dance lessons. We got the Glockenspiels out to practise hitting note 'C' in time to the music.

Autumn is truly upon us and learning about the changing seasons is a big topic in Year 1 Science. Next week we will be finding out about autumn, doing some weather experiments, collecting leaves and conkers and using it in our creative work. We really look forward to taking our learning outdoors and working in our lovely school gardens. We shall also be writing simple poems using our senses as Next Thursday is National Poetry week. We hope to get lots of inspiration from working in the gardens, seeing, smelling, touching, listening and hopefully tasting!

Phew! I don't know how we will fit it all in!

It has been a happy week of learning this week and I look forward to more exciting learning with the children next week.

Have a great weekend everyone.

Mrs Furness
