

St Oswald's Year 2: Weekly Update

12th September - 16th September 2022

Hello,

This is the first full weekly update for the Year 2 class. In these updates, I will be sharing a little of everything we do in our 'Touch the Future' curriculum here at St Oswald's.

Visiting Padgate Library

The children had a great time on Thursday morning as we visited Padgate Library. It was a long walk, but the weather was lovely and we had an enjoyable story read to us by the librarian.

Computing

After a couple of sessions of learning how to log on and access PurpleMash, we started our programming unit, where the children had to give instructions to make aeroplanes take off.

Police Visit

The children were visited by PCSO Tom and PCSO Georgina on Tuesday. The officers spoke to the children about being safe when outside of school in the community as well as how to keep safe online.

School Councillors:

Democracy came to Year 2 this week as the children voted in two new school councillors. This year Aiden and Isla R will be taking on the baton from the previous councillors; Isla I and Henry.

Science:

We started our Materials topic in Science this week. The children were investigating different materials; how they looked, felt and if they were flexible or not.

Thank you for all the support that you are given at home already.

The children brought back their reading books today. Please make sure they read every night and the reading record is filled in.

If you haven't already done so, please can you make sure your child's name is on their jumpers, cardigans, PE tops and bottoms.

Thank you.

All the best,

Mr Coppenhall
