

St Oswald's Year 2: Weekly Update

16th - 20th January 2023

Hello,

I feel the class is well and truly settled in again now, and they have been enjoying really getting into all the different subjects that are taught in Year 2. It was great seeing so many of you at the parent's meetings, so thank you for taking the time to see me and discuss how all the children are getting on. Here are a few highlights of this week.

Each others strengths (PSHE)

The children took time to think about each other in the class and were given someone at random in the class that they drew and wrote what they were good at.

Gymnastics

We started our gymnastics unit in PE this week and the children did a great job of exploring some of the different gymnastic shapes.

Direction and turns (Maths)

The children took it in turns to direct each other around the classroom, using direction language such as; clockwise and anticlockwise, quarter and half turns, as well as forwards and backwards.

Baby bear's chair (DT)

We took time this week and last to build and complete our chair for baby bear. The children used their knowledge of cylinders and their strength to create the 3D chairs.

It's snow much fun...

It's been a cold week at times, but we didn't let that stop us having lots of fresh air and fun (when it wasn't too slippery!). It was great to be able to enjoy the fantastic outdoor space our school has in all different weathers!

Grouping Animals (Science)

The children did a great job of recapping on their knowledge of different animal groups on Friday. They sorted the animals into whatever groups they liked, but most chose to do it scientifically and it was great to hear them using all the different terminology.

A MASSIVE Congratulations to Braydon who is our star of the week this week. You are a superstar!

Thank you as always for all the support that you give at home each day whether it be reading, homework, spellings or going through Big Maths. It really does make all the difference.

All the best,

Mr Coppenhall
